ALLIES TO HELP HUNT SPIES

Secret Service Men From Abroad Here—Must Have United Work—Motorists, German Agents at Large in This Country, Cares Secret Mail.

Washington, July 5.—More complete and efficient co-operation of United States Secret Service Agents with those of European allies is recognized as the great problem that must be met in stamping out the spy ring.

While it was said today that operatives of the State, War Navy, and Justice Departments are co-operating with good results in running down active enemy agents, it was strongly indicated that much remained to be accomplished in a month. Long lines of people stand outside the stores waiting to buy coffee may already be seen.

The government has already taken extraordinary measures to deal with extensive unemployment, which is considered inevitable if the war lasts another winter and it becomes impossible to import needed commodities. In view of the situation in some quarters that Sweden's imports were not intended solely for the benefit of the United States.

When the United States entered the war the Secret Service was confronted with a program of discouraging, magnitude. The machinery of the departments, built up almost entirely for the handling of domestic problems, was suddenly required to shoulder the immediate burden of coping with thousands of plotters and spies.

The attacks upon American transports were the result of the work of spies is accepted generally in Washington without surprise. The salient of transportation is mentioned by the newspapers, was known to a large number of persons who witnessed the train's departure from Washington.

Officials are inclined to discount theories of spy work in the Government department. Informants of direct value known to only a few trusted officials. Suspected individuals have been subjected to strict surveillance and have been removed from public access among this class have been frequent.

Denials were general today that work of United States Secret Service operatives had caused disunion in the Cabinet. It was asserted that for some time the secret service had been working in complete harmony and accord.

LIFTS BAN ON AMERICANS Germany Places Citizens of U. S. on Same Footing as Neutrals.

Berlin, via London July 8.—Virtually all restrictions and regulations to which American citizens resident in Germany have been subjected are removed through an agreement reached between the German Foreign Office and the military and police authorities. The agreement exempts citizens of the United States from reporting to the police and from observing the hours fixed for outdoor movements.

American citizens hereafter will be permitted to travel about Germany without being called upon to go through the laborious and slow-moving routine which has been the lot of those who have been subjected to the new regulations.

NEUTRALS MUCH WORRIED

Talk of Cutting Food Exports A Grave Situation.

Stockholm, July 6.—Washington advices of the last few days forecasting the sharp limitation or possible discontinuance of all exports to neutral, caused anxiety in government circles and among the people generally. The situation is already grave and the prospect, pictured by news from America, renders it still more disquieting.

Provisions, it is to be expected, many factories in various lines are closed by lack of raw material. Others cannot continue production much longer. Bontine and peacocks make monthly exhibition. Leather is scarce and so dear that pair of ordinary shoes cost from \$10 to \$12. Automobile tires bring \$400 apiece. The cost of living is steadily increasing. The stocks of coffee in the Kingdom will be exhausted in a month. Long lines of people stand outside the stores waiting to buy coffee may already be seen.

The government has already taken extraordinary measures to deal with extensive unemployment, which is considered inevitable if the war lasts another winter and it becomes impossible to import needed commodities. In view of the situation in some quarters that Sweden's imports were not intended solely for the benefit of the United States.

Official statistics of Sweden's imports for 1916, which are now being completed, show a decided decrease compared with the last normal year, and in many instances where our imports from the United States have been increased.

GERMAN RAID ON LONDON

One of Raiders Drowned—Street Crowded During Second Attack by Enemy, but People Quick to Take Refuge.

LONDON, July 7. London today endured the greatest air raid in its experience. For a second time the city was subjected to a surprise attack by German aircraft. The raiders, who were engaged by British aircraft and anti-aircraft guns, and undoubtedly never in the world's history any battle on the ground or in the air, were in the night of so many persons. The German squadron today was larger than that which attacked the city on June 13, then lower and covered a bigger area, the air planes attacked making a big detour to attack and destroy the city from the northwest, but the casualties totaled less than a third of those of the raid last night. An official report says thirty-seven persons were killed and 141 injured.

CELLS PREPARED FOR SUFFRAGISTS; WONT PAY FINES

Washington, July 6.—Eleven of the suffragettes who staged the Fourth of July demonstration in front of the White House tonight are occupying cells in the District Jail. They will remain for three days, having refused to pay the fines of \$25 each imposed in police court today by Judge Mulhoney.

Superintendent Zinkham prepared in advance for the prisoners who were expected to be released. There was no delay in accommodating the militants. Eleven cells had been placed on the little iron cots and new linens placed ready for the use of the suffragists. While the matrons offered to waive the bail which is preliminary to the locking up of all prisoners, the militants were glad to take advantage of the cold-plunge after their long day in the streets.

By the time "lights out" was ordered, the pink satin slippers were peeping from beneath the beds and the nails in the walls were cluttered up with shiny lingerie, impromptu toilet articles, and other things. The manager was arrested and placed in the penitentiary. The German Consul made a demand for the release of the suffragettes. A reflection of this sentiment was seen recently in the statement of General Francisco Gonzalez, Acting Secretary of State, that the American military zone with better quarters at Chihuahua. He was overhauled by the German firm of K. & D. & Co. of Chihuahua, Mexico, and, during the last month, a well defined movement favoring open trade with Germany and the alignment of Mexico on the side of the Entente Allies has developed. This has been in spite of the pro-German sentiment published daily in Chihuahua City and in other papers believed to be subsidized by the Germans in the north.
